Prerequisites: “C” or better in Math. 1220 or 1250 or a score 4 or 5 on the AP calculus BC exam.

Course description: Vectors in the plane and in 3-space, differential calculus in several variables, integration and its applications in several variables, vector fields and line, surface, and volume integrals. Green’s and Stokes’ theorems.

Tutoring Lab: T. Benny Rushing Mathematics Student Center (adjacent to JWB and LCB), Room 155
M - Th 8 a.m. - 8 p.m. F 8 a.m. - 6 p.m. (closed Saturdays, Sundays and holidays)

Grading: There will be weekly quizzes (15-20 minutes at the end of Friday lectures), three midterms (also on Friday), and a comprehensive final examination. Homework will be assigned but will not be collected. The quizzes and the midterms will be based on the homework. It is strongly recommended that you do all of the homework and seek help for any trouble with the homework or with understanding the material covered in class.

Your lowest two quiz scores and the lowest midterm score will be dropped. The midterms are scheduled on **Fri. Sept. 21**, on **Fri. Oct. 26** and on **Fri. Nov. 30**. The final exam is scheduled on on **Wednesday, December 12, 2012 10:30 A.M. to 12:30 P.M.**). The quizzes, midterms and final will account for 30% , 40% and 30% respectively of your final grade. Books, calculators and notes will not be allowed at the exams. Make up tests and exams will only be given for serious and documented reasons.

The University deadline for withdrawal requests is Friday, October 19 (there is no tuition penalty if the class is dropped by Wed. Aug. 29).

ADA statement: The American with Disabilities Act requires that reasonable accommodations be provided for students with physical, sensory, cognitive, systemic, learning, and psychiatric disabilities. Please contact me at the beginning of the semester to discuss any such accommodations for the course.
