

*DAILY SCHEDULE OF LECTURES FOR MATH 1040 (sec. 1) -
TENTATIVE*

This is a tentative schedule. Any changes will be announced in class. If you miss a class it is your responsibility to find out what was covered. The quiz and test dates are given and those dates will not change. The material that you will be tested on is subject to change (depending if we are on schedule or not).

WEEK	LECTURE	SUGGESTED PROBLEMS
#1 8/22-8/26	1: Intro to the course 2: Algebra review 3: Algebra review; <u>Quiz #1</u> (Algebra);	Diagnostic Test
#2 8/29-9/2	1: 1.1 – An Overview of Statistics 2: 1.2 – Data Classification 3: 1.3 – Experimental Design	p. 6: 1-43 odd, 47 p. 13: 1-29 odd p. 23 : 1-37 all
#3 9/5-9/9	1: <i>Labor Day Holiday</i> 2: 2.1 – Frequency Distributions and Their Graphs 3: <u>Quiz #2</u> (1.1-1.3); 2.1 (cont.)	p. 47: 1-43 odd
#4 9/12-9/16	1: 2.2 – More Graphs and Displays 2: 2.2 (cont.); 2.3 – Measures of Central Tendency 3: 2.3 (cont.)	p. 60: 1-29 odd, 35 p. 72: 1-57 odd
#5 9/19-9/23	1: 2.4 – Measures of Variation 2: <u>Quiz #3</u> (2.1-2.3) 2.4 (cont.) 3: 2.4 (cont.)	p. 90: 1-47 odd
#6 9/26-9/30	1: Review (for Exam #1) 2: <u>EXAM #1</u> (Chapters 1 and 2.1-2.4) 3: 2.5 – Measures of Position	p. 107: 1-49 odd
#7 10/3-10/7	1: 3.1 – Basic Concepts of Probability and Counting 2: 3.1 (cont.) 3: 3.2 – Conditional Probability and the Multiplication Rule	p. 138: 1 – 73 odd p. 150: 1-33 odd
<i>FALL BREAK (October 10 – October 15)</i>		

#8 10/17-10/21	1: 3.2 (cont.) 2: 3.3 – The Addition Rule 3: <u>Quiz #4</u> (2.5, 3.1-3.2); 3.3 (cont.)	p. 161: 1-25 odd, 29
#9 10/24-10/28	1: 3.4 – Additional Topics in Probability and Counting 2: 3.4 (cont.) 3: More examples (Probability)	p.174: 1-53 odd
#10 10/31-11/4	1. Review (for Exam #2) 2: <u>EXAM #2</u> (Sections 2.5 and 3.1-3.4) 3. 4.1 – Probability Distribution	p. 197: 1-45 odd
#11 11/7-11/11	1: 4.1 (cont); 4.2 – Binomial Distribution 2: 4.2 (cont). 3: 5.1 – Intro. To Normal Distributions and the Standard Normal Distributions	p. 211: 1-33 odd p. 244: 1-59 odd
#12 11/14-11/18	1: <u>Quiz #5</u> (4.1-4.2); 5.2 – Normal Distributions: Finding Probabilities 2: 5.2 (cont.) 3: Review (for Exam #3)	p. 252: 1-27 odd
#13 11/21-11/25	1: <u>EXAM #3</u> (Sections 4.1-4.2 and 5.1-5.2) 2: 5.3 – Normal Distributions; Finding Values 3: <i>Thanksgiving Holiday</i>	p. 262: 1-37 odd, 38
#14 11/28-12/2	1: 5.3 (cont.) 2: 9.1 – Correlation (pg.484-488) 9.2 – Linear Regression 3: 9.2 (cont.) <u>Quiz #6</u> (5.3, 9.1, 9.2);	p. 495: 1-5 all, 9-18 all p. 505: 1-16 all, 17, 18, 21, 23, 26, 27
#15 12/5-12/9	1: Review (for Final) 2: Review (for Final) 3: Review (for Final)	
<i>FINAL (Comprehensive)</i> <i>Monday, December 12th 8am – 10am</i> <i>(in our classroom)</i> <i>Note: if there is a location change for the final, I will make an announcement in class during the last few weeks of the semester.</i>
