

Recommendation Letter for Diana Harris

January 20, 2010

I am writing this letter to recommend Diana Harris for the Dr. Lane and Paula Child's Scholarship.

I first met Diana in my math 1040 class (Introduction to Statistics and Probability) in Fall 2010. It was a great pleasure to have Diana in my class. She attended classes regularly and asked good questions. She was extremely pleasant and seemed to work hard. Her performance was outstanding and she placed in the top 4 out of 160 students of the two parallel sections of math 1040 that I was teaching at the time. (Note that I consider the top four students performances as being too close to distinguish.) Naturally, Diana easily earned a grade of A in my class. I believe that she is a smart and motivated young woman who will do very well in her future studies and therefore I am happy to recommend her without any reservations for the Dr. Lane and Paula Child's Scholarship.

Should you have any further questions, please contact me at (801) 585-7429 or hacon@math.utah.edu

Sincerely,

Christopher D. Hacon
Professor of Mathematics at the University of Utah
